Appearance: colourless
 Fragrance: Fresh mint
 Density: 1.00 - 1.02
 pH: 7.00 - 8.00

PACKAGING

1L bottle dispenser - Ref. OR8003P1 (or P2)
 5L can - Ref. OR8005P1 (or P2)

*For professional use only
 For more information refer to the Material Safety Data Sheet.*

CARPET 800 is non CLP classified with respect to amounts to be used.

UNE MARQUE
ORAPI
GROUP

USED FOR

Biotechnological cleaner. Removes stains and unpleasant odours from fabrics, carpets and textiles.

Multipurpose product: stain remover, cleaner (extraction), shampoo, odour remover.

INSTRUCTION FOR USE

CARPET 800 is a concentrated product. Dilute in cold water. For best results, we recommend using a vacuum cleaner on the item in question when it is dry, both before and after cleaning. For textiles, first test the product on a small area only.

Using with a machine: mechanical or electric carpet cleaner, floor polisher (fitted with carpet brush). Fill the tank with the solution. Use in accordance with the equipment manufacturer's instructions. If the carpet is very dirty, leave for a few minutes before extracting.

Using by hand: dilute the shampoo. Shake the mixture until a thick, even foam is obtained. Brush in using a soft brush, working in the direction of the fibers. Brush once again, in the opposite direction. Leave to dry for about one hour then vacuum.

Stain removal: spray stain with solution until soaked. Scrub gently with a brush or a dry cloth. Blot up any excess solution. Leave to dry. Rinse if necessary with clean water.

	%	MI/L
	0.5%	5ml
	2%	20ml
